My Experience at iBuild - Problem

- To attract new customers, websites must stay modern
- Staying modern requires constant and widespread changes of various types
- Includes updates to product pages, pricing, and more
- Online interaction leads to sales and visibility
- iBuild must publish content often to increase online engagement

My Experience at iBuild - Role

- Joined team A in a Front-end/Web developer role
- Worked under team leader Max while learning the basics
- Asked to take on the role of team leader (week 3)
- Acted as team leader and team member for the remainder of semester

My Experience at iBuild - Tasks

Team Leader Tasks:

- Attend meetings to provide progress reports
- Review all work completed by Team A
- Train team members on new tasks
- Assist team members when required

My Experience at iBuild - Tasks

Team Member Tasks:

- Worked on website changes to keep the site modern
- Update all product pages and prices
- Created multiple blog posts for new customers

Selection of blog posts created during my time at iBuild

Section of one of the blog post's I created for a customer

Personal and Professional Growth

- Gained proficiency in Wordpress Elementor
- Use of iBuild's staging site
- Creation of VR tours and blog posts
- Gained new insights into managing a team
- Gained an understanding relating to the responsibility of reporting team progress

Personal and Professional Growth

- Endeavour to learn further new skills
- Continue to refine management skills
- Improve on the way in which I report during meetings

Personal and Professional Growth

- While a new challenge, led the team well
- Should have clarified expectations
- Completed a greater portion of work
- May have led to fewer opportunities for team members

Conclusions + Discussion

Thanks for Coming
