

# ICT80004 Internship Project

## School of Science, Computing and Engineering Technologies

### Me in a Minute – Swinburne Guide to Internship Role Video

#### How to Prepare for Your Video Pitch

- **Understand the purpose:** This is your *pitch* to potential employers. It's your chance to show why you're a valuable addition to their team. Be authentic, enthusiastic, and professional.
- **Know your value:** Clearly communicate your knowledge, skills, attitudes, and attributes. Explain how these make you employable and beneficial to their workplace.
- **State your job interests:** Express what kind of job you're seeking, why it suits you, and how it aligns with your skills. Show your passion for the field and demonstrate that you've done your research.
- **Practice, practice, practice:** Write down your pitch, edit it to be concise and impactful, and rehearse it. Aim for confidence and natural delivery - avoid sounding robotic or overly rehearsed.
- **Use suggested topics:** Stick to the key points we've outlined (below) to ensure you're hitting what employers want to hear. Be specific, not generic.
- **Give examples:** Briefly reference real experiences that highlight your skills - like teamwork, communication, and problem-solving.
- **Look the part:** While formal dress isn't required, present yourself professionally. Show you take personal presentation seriously and want to leave a strong impression.

---

#### Topics to Cover in Your Pitch

1. **Your course:** What you studied, your major, and the key skills and knowledge you gained (refer to Swinburne's Graduate Learning Outcomes - GLOs).
2. **Your passions:** What motivates you? What excites you about your field or future career?
3. **Your career goals:** What kind of job are you aiming for? What's your long-term vision?
4. **Your experiences:** Highlight part-time jobs, volunteering, leadership roles, internships, or extracurricular activities that developed your skills.
5. **Your unique qualities:** What makes you interesting? Share hobbies or interests that make you stand out.
6. **Your attributes and strengths:** End strong by confidently summarizing why you'd be a great asset to a team.

---

#### Benefits of Your Video Pitch

- Promotion on the *Shaping STEM Futures* website

- A Swinburne-endorsed video showing your university is proud of you
  - Exposure to employers through university platforms
  - A quick and engaging way for employers to learn about you
- 

### How You Can Use It

- Include a link to your portfolio to showcase evidence of your work
  - Embed your pitch video on your LinkedIn profile
  - Share it directly with employers or in job applications
- 

### Optional Video Questions (for Structure)

1. **Name and qualification:** Who are you and what did you study?
2. **Relevant experience:** What experience and skills do you have that relate to your career goals?
3. **Course skills:** What are the top skills or knowledge areas you gained through your course (link to 3 relevant GLOs)?
4. **Career aspirations:** What job are you aiming for, and why?
5. **Why you?:** What makes you the ideal candidate?
6. **Final impression:** Close with a short, positive statement that leaves a lasting impression.
